

Key Operating & Financial Statistics April 2024

OVERVIEW

Iroquois Valley Farmland REIT is one of the first public benefit companies in the U.S. to offer investors direct exposure to a diversified portfolio of certified organic farmland. The Company raises funds through a combination of equity and debt securities and uses the capital to:

- provide long-term land access to farmers through leases and mortgages
- support the financial health of their businesses through operating credit lines

Iroquois Valley is an operating company, not a fund. The Company's revenue comes in the form of lease, mortgage, and interest payments. Corporate expenses follow a board-approved annual budget. Investor returns are via interest payments for Noteholders and cash dividends and appreciation of stock for Shareholders.

The Company is a Certified B-Corp and Public Benefit Corporation whose goal is to create public benefit by enabling healthy food production, restoring soil, and improving water quality through the establishment of secure and sustainable farmland tenure.

NOTES

- **Cover Page**
 - Photo shows flowers being harvested at Tulip Tree Gardens in Will County, Illinois.
- **Capitalization – Equity** (as of April 1st, 2024 unless otherwise noted)
 - Account Type: Total shares by account type; Individual (including joint accounts); Trusts (including revocable and irrevocable trusts); Retirement = self-directed individual retirement account or other tax deferred investment account; Entities = multiple member investment entities, foundations, family offices, or non-profits
 - Shareholders: Number of equity shareholders
 - Equity Value: Book value of equity (as of December 31st, 2023)
 - Share Price: Management or Board's estimate of share price. All historical prices have been adjusted to account for 8-for-1 forward stock split in October 2023 (price as of December 31st, 2023)
- **Capitalization – Debt** (as of December 31st, 2023 unless otherwise noted)
 - Debt Maturities (thousands): Maturity year of outstanding debt obligations in thousands of dollars
 - Historical Leverage Ratio: Outstanding debt to asset value at end of year
 - Debt Facilities: Existing debt facilities and outstanding amounts
 - Liability Source (as % of debt): Percentage of debt outstanding based on source of debt

Please note that numbers in the presentation have been rounded when appropriate.

NOTES

- **Subscription Diversification** (as of April 1st, 2024)
 - Funding Source: Number of subscriptions, by year from financial advisors vs. directly by investors
 - Investor Location: Primary state of residence for equity investors or note holders
 - Investor Subscriptions: Number of subscriptions, notes and equity, by year (individual notes counted separately from each other and separate from concurrent equity subscriptions; retained capital from note maturities not included)
 - Investment Account Value: Breakdown of investment size for shareholders
- **Asset Analysis** (as of April 1st, 2024)
 - Owned & Financed Acres: Number of acres owned or financed by the Company
 - Investment Map: States in which Iroquois Valley has investments
 - Production Mix: Based on farm type by asset value on owned and financed acres. Note that diversified describes operations with more than one enterprise. For example, diversified operations may include livestock, dairy, field crops, cut flowers, honey, and more.
 - Portfolio Breakdown: Investment asset mix based on gross book value
- **Farmer Demographics** (as of April 1st, 2024)
 - Farmer Age: Breakdown of generational age grouping by farmer across portfolio
 - Acres to Young Farmers: Acres purchased for lease to Young Farmers, including through our legacy program, the Young Farmer Land Access Program. Young farmers are defined as those who were born in 1981 or later.
 - Women Farmers: “Involved” is defined as women on farm who are known operators and/or are named on lease / mortgage documents
 - Farmer Generations: Breakdown of generational legacy by farmer

NOTES

- **Revenue Analysis** (as of December 31st, 2023)
 - Revenue: As reported in GAAS financial statements each year reported (reflects accrual accounting)
 - Variable Rent: As calculated within GAAS financial statements each year reported (reflects accrual accounting)
 - Revenue by Farm Investments: Total revenue by farms grouped by acquisition year
- **Investment Analysis** (as of April 1st, 2024)
 - Diversity of the Portfolio: Percentage of farmers with BIPOC (Black, Indigenous, and people of color) partners/farmers on the land
 - Number of Farm Investments: Total number of farm investments in portfolio
 - Repeat Investments with Farmers: Percentage of investment capital based on number of times working with same farmer
 - Asset Value by State: Book value of owned and financed farmland by state

NOTES

- **Operating Analysis** (as of December 31st, 2023)
 - Funds from Operations: Net income excluding gains and losses from the sale of real estate and asset impairments, plus depreciation and amortization
 - Operating Expenses: Annual operating expenses divided by year-end asset value
 - Debt Service Coverage: Annual EBITDA divided by interest expense
 - Operating Profitability: Funds from operations divided by revenue
- **Asset Performance** (as of December 31st, 2023)
 - Bad Debt Expense: Annual expense recorded in the income statement related to bad debt
 - Bad Debt Expense to Assets: Annual bad debt expense divided by total assets
 - Receivables to Assets: Gross accounts receivable and interest receivables divided by invested assets at book value (gross)
 - Return on Assets: Funds from operations divided by total assets
